# Get your referral link in about two minutes

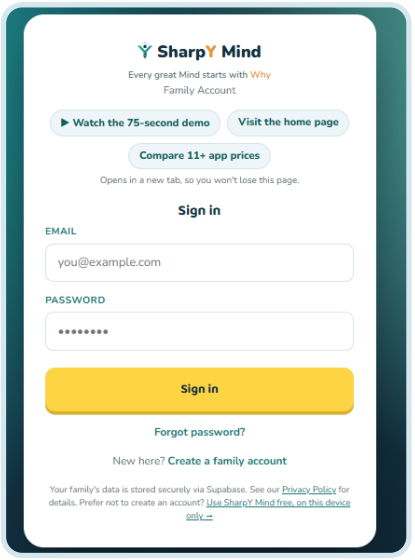
Free to join. No minimum number of families and no commitment. Follow the steps below, in order.

## 1 Create your free account

Go to [sharpymind.co.uk/login](sharpymind.co.uk/login). Tap **Create a family account**, enter your email and a password, and tick the required consent box.

## 2 Confirm your email

We send a confirmation link to your inbox. Click it, then come back and **sign in**. Check junk or spam if it does not arrive within a few minutes.

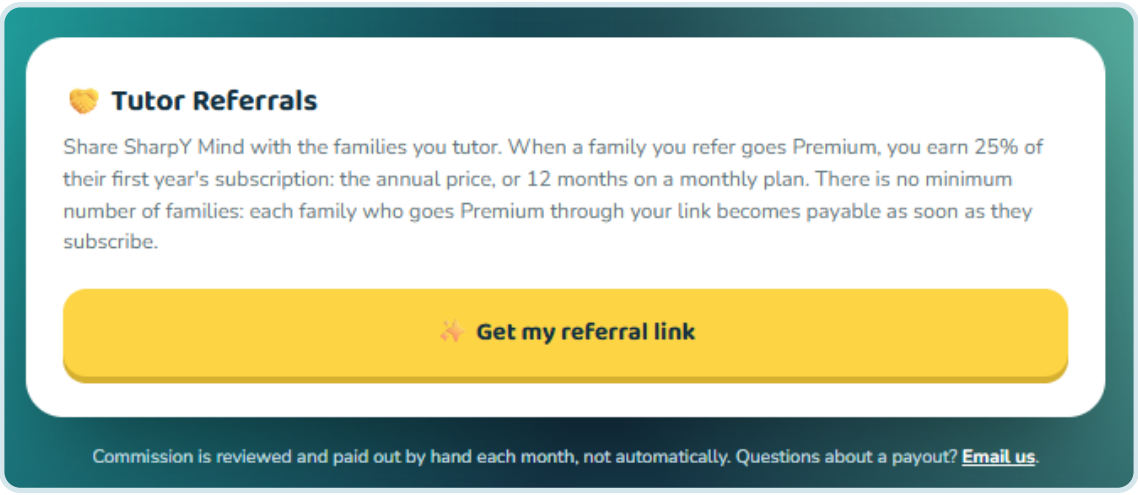


## 3 Find the tutor card

After you sign in you land on the Family page. Scroll to the card **Are you a tutor?** and tap **Get my referral link**. You can also go straight to **sharpymind.co.uk/tutor-referrals** while signed in.

## 4 Tap "Get my referral link"

Press the yellow button on the Tutor Referrals page. Your personal code and ready-made link appear straight away.



YOUR LINK WILL LOOK LIKE THIS (YOUR CODE WILL BE DIFFERENT)

**sharpymind.co.uk/login.html?ref=YOURCODE**

Use the Copy link button to copy it, then paste it into a message or email.

### 5 Share it with your families

Send your link to the families you tutor by message, email or your WhatsApp group. Anyone who signs up through it is tracked to you.

## How you earn

- **25% of the family's first year subscription.** That is the annual price, or 12 months on a monthly plan, paid on each family who goes Premium through your link.
- **No minimum** number of families, no cost to you and no commitment.
- **Tracked for you.** Your Tutor Referrals page shows how many families you have referred, how many have gone Premium and what you are owed.
- **Paid by hand each month.** Commission is reviewed and paid out monthly, not automatically.
- **One account, one link.** Families must sign up through your link to be tracked to you. A link applied after sign-up cannot be added later.

## What to tell families

"SharpY Mind is not here to replace our sessions. It gives your child more practice between lessons, so they arrive more confident and what we cover together lands with more clarity. They work alongside Buddy, the brain mascot, so practice feels like fun, not a chore. There is a 30-day trial to start, and my link is below."

## Good to know

- **Privacy first.** A family account needs only a parent's email, a nickname, year group and target school. No real names, no dates of birth, no ads and no tracking.
- **Built for Years 3 to 5.** 150+ topics, GL-style timed mocks and printable worksheets, covering 170+ target schools, including every state grammar school in England, across 7 exam formats.
- **Free to start.** Families get a 30-day trial, then can move to Premium for unlimited timed mocks and watermark-free worksheets.
- **Need a hand?** Email hello@sharpymind.co.uk and we will help you get set up.
